Design Explanation for Commemorative Coin for the MEIJI150th

Obverse side (1.5 times/actual size)

“Early Meiji period train station and logo of the related measures for the MEIJI150th campaign”

- The obverse side consists of the early Meiji period train station designed based on a colored woodblock print entitled " tōkyō shiodome tetsudōkan jōkisha machiai no zu " by Utagawa Hiroshige (the third), with the logo of the related measures for the MEIJI150th campaign.

Reverse side (1.5 times/actual size)

“Design from the obverse side of the 20 yen gold coin issued in the early Meiji period”

- The reverse side consists of the design from the obverse side of the 20 yen gold coin issued in the early Meiji period.
